

PC6 single point load cell

product description

Designed for high accuracy trade approved weighing in wet environments, the PC6 single point load cell is the benchmark product. From capacities as low as 10kg and accuracy classes including OIML 4000d, the PC6 is ideal for weighing machinery in food and beverage applications that demand accuracy and robustness. The compact nature of the PC6 lends itself also to the construction of high accuracy bench scales and multi-head weighers.

applications

Bench scales, small platform scales, multi-head weighers, high speed checkweighers.
